

“The event was very successful and everyone had a superb time, the feedback has been fab.

From my perspective it appeared flawless and Stella did an amazing job in both the preparation and the delivery. She had thought through everything and also suggested extra elements of detail which really added to the exclusiveness of the evening... an event they will all remember and an important one for us to get ‘right’.

I was also impressed with the wider team along with the production guys who, I have to say, were excellent and all were responsive and nothing was too much trouble.

A good example of MCI working in partnership with Wyeth”
